#### Daddy

The daddy's goal is to prevent the baby from dying. He has a number of items that can be found inside the house to help him complete this task such as:

- Power Outlet Covers
- Cabinet Locks
- Pills

The father player also has the option to do various chores around the house, such as cleaning up toys or changing a smoke alarm battery. Doing these side activities rewards the father player with a power up to help him watch over his son. Some examples of these are:

- Peek-A-Boo: Makes the daddy invisible
- Bat Dad: Daddy can see baby's health and location through walls
- Say Momma: Daddy can see the location of important objects through walls

The daddy player faces a number of challenges, due to needing the knowledge of how to approach any danger his baby may be in. He needs to be alert, fast moving and prepared for anything if he wants to keep his son safe.

# Baby

The baby's goal is to take his own life using whatever objects within the house he can get his little hands on. This includes actions such as:

- Shoving forks into power outlets
- Chugging various cleaning products
- Scuba diving unsupervised in the tub

The baby player has minimal responsibility and this allows for a simple, yet erratic play style.

. This was a fun game that was great until the developers added so many ways for the baby to kill itself it made it almost impossible to win as the father so in its current state i would say to give this game a pass. 10\/10 ould play again. This game is by far hilarious, but sadly the game would not work on my laptop even with low quality. I think it's just my PC, but I probably won't play this game until I get a better computer. I really like this game and I recommend it, but for those who have computers that does NOT have the capacity to run games like this, don't Install/download the game unless you have a better computer.. im your daddy. I'd recommend it with friends or family, but it's not that fun by yourself playing online. It's filled with bugs, so don't expect a really easy time. If you've got money to spare, sure you can get it, but otherwise it'll just be a waste.. Horrible game. My son left it open all night so I couldn't even get a refund from the devs. Looked super promising.. Remember when this game was popular?

cause I wish I didn't. Accurate example of how my childhood was.
